

November 2013
FOR IMMEDIATE RELEASE

GVL Polymers, Inc. announced in June 2013 they have selected Hesston, Kansas as the location for their second facility. GVL Poly is a manufacturer of rotational molded, polyethylene parts for agricultural, industrial and commercial industries. Founded in 1992, and headquartered in Litchfield, Minnesota, GVL Poly will be a great addition to Hesston, Harvey County and Kansas.

Construction has already started on their new 50,000 square foot facility located at 8515 N. Hesston Road. Upon completion in early 2014, they plan to hire 20-25 new employees within the first year. They anticipate doubling that number between year two and three of operation.

You can find pictures of current progress on their new facility and additional information on their website at www.gvlpolymers.com.
